Vol. 10, No. 2

One Dollar A Year

February 1949

BRACES

59. St. James, Robertine

Hurdling the psychological barrier of braces. Spastic Rev. Jan., 1949. 10:1:16, 18.

Proper understanding of the value of braces as an important aid to a program of treatment and rehabilitation will lessen reluctance toward their use on part of parents and child.

BRUCELLOSIS-MEDICAL TREATMENT

60. Spink, Wesley W. and others.

Treatment of brucellosis with streptomycin and a sulfonamide drug, by Wesley W. Spink and others. J. Am. Med. Assn. Feb. 5, 1949. 139:6:352-356.

CANCER-MEDICAL TREATMENT

61. American Medical Association. Council on Pharmacy and Chemistry.

Cancer and the need for facts. J. Am. Med. Assn. Jan. 8, 1949. 139:2:93-98. Reprint.

"The Council emphasizes the need for caution in the premature adoption of the new theories or use of improved treatments proposed for cancer and issues this report in condemnation of the numerous fraudulent remedies for the disease and the early publicity of unestablished remedies."

CEREBRAL PALSY-EQUIPMENT

62. Rogers, Gladys Gage.

Toys, games and apparatus for children with cerebral palsy. Physical Therapy Rev. Jan., 1949. 29:1:5-11.

Reprinted with revisions from Physical Therapy Rev. Jan.-Feb., 1935.

Discusses the types of toys, games and apparatus useful in a physical therapy program for the cerebral palsied child. Authors stress factors of setting or environment in which toys are used and the psychology of their use as of paramount importance.

See also 59

CEREBRAL PALSY-MEDICAL TREATMENT

63. Thompson, S. B.

A program for the management of the cerebral palsied. J. of Arkansas Med. Society. Jan., 1949. 45:8:151-155. Reprint.

CEREBRAL PALSY-MEDICAL TREATMENT (continued)

A summary of the classification, mental evolvement, differential diagnosis, management, cost and role of the pediatrician in a program for the cerebral palsied.

CEREBRAL PALSY--OCCUPATIONAL THERAPY

64. Bosley, Elizabeth.

Teaching the cerebral palsied to chew. Spastic Rev. Feb., 1949. 10:2:7-9, 20.

An early development of proper chewing habits is necessary in order to ensure adequate speech in the cerebral palsied child. Helpful exercises and methods of treatment are described to aid the parent in training the child.

65. Brunyate, Ruth M.

OT means freedom for parents. Crippled Child. Feb., 1949. 26:5:11-13, 28-29.

The role occupational therapy plays in the re-education of the cerebral palsied child is explained for the benefit of parents. OT equipment and methods of child training are described.

CEREBRAL PALSY--PROGRAMS--CALIFORNIA

66. Jones, Margaret.

Cerebral palsy programs as seen at the Southern California Cerebral Palsy Clinic. Am. J. of Mental Deficiency. Jan., 1949. 53:3:466-469.

Placement of low mentality group, placement and treatment facilities for the severely handicapped, and vocational guidance facilities for the moderately handicapped are the main problems at the Southern California Cerebral Palsy Clinic.

CEREBRAL PALSY--PROGRAMS--CONNECTICUT

67. Fuldner, Russell V.

Cerebral palsy in Connecticut today, by Russell V. Fuldner and Louis Spekter. Connecticut State Med. J. Jan., 1949. 13:1:12. Reprint.

A resume of incidence and medical classification of the 421 cases of cerebral palsy in Connecticut today. A comprehensive chart indicating the facilities and services available in the state for children with cerebral palsy is given, together with the name of the sponsoring welfare agency or social service organization.

CEREBRAL PALSY--PROGRAMS--MASSACHUSETTS

68. Massachusetts. Bay State Society for the Crippled & Handicapped, Worcester.

The Bay State Treatment-Training Center of the Bay State Society... (Worcester, Mass.), The Society, (1948?).

Publicity leaflet describing the center, its purpose, organization, and services provided.

CEREBRAL PALSY--SPECIAL EDUCATION

69. Stoelting, Frances.

Introducing the young c. p. to the outside world. Spastic Rev. Jan., 1949. 10:1:7-8, 11-12, 15.

A teacher of a special class for young cerebral palsied children at the Randall J. Condon School, Cincinnati, Ohio, describes the methods she uses in her teaching program to develop healthy social instincts and tendencies in her pupils.

70. Tudyman, Al.

A public school plan for special cerebral palsy classes. Crippled Child. Feb., 1949. 26:5:20-22, 29.

CEREBRAL PALSY--SPECIAL EDUCATION (continued)

A plan for the establishment of a special cerebral palsy education program. Staff, medical care, classroom facilities, equipment, and academic training are evaluated.

CEREBRAL PALSY--SPEECH CORRECTION

71. Shere, Marie Orr.

Let Raggedy-Ann help teach your child to talk. Crippled Child. Feb., 1949. 26:5:14-15, 30.

"Suggestions which are offered should be helpful in developing speech readiness in the young child and so prepare him for formal speech therapy later."

CHILD CARE

See 118

COMMUNITY CHESTS AND COUNCILS--REPORTS

72. Community Chests and Councils, Inc.

Trends in community chest giving - 1948. New York, Community Chests and Councils, 1948. 11 p., tables. (Bulletin No. 139)

Series of short, statistical charts and tables illustrating trends in community giving according to region, subscribers, size of gift, corporation contributions, employee contributions, etc.

CONVALESCENCE--INSTITUTIONS--CONNECTICUT

73. Higgons, R. A.

A report on 21 years' service, by R. A. Higgons and Arthur Slothower. Hospitals. Feb., 1949. 23:2:47-50.

Program and facilities for the care of convalescent patients at St. Luke's Convalescent Hospital.

CONVALESCENCE--INSTITUTIONS--DESIGNS AND PLANS

74. Lapidus, Morris

Design for beauty and economy. Hospitals. Feb., 1949. 23:2:43-46.

A description of the modern, well-planned convalescent home built by the Brooklyn Jewish Home for Convalescents.

DEAF--BIOGRAPHY

See 119

DEAF--PSYCHOLOGICAL TESTS

75. Kirk, Samuel A.

A comparative study of the Ontario and Nebraska tests for the deaf, by Samuel A. Kirk and June Perry. Am. Annals of the Deaf. Sept., 1948. 93:315:323. Reprint.

An evaluation of two tests recently devised to test the mental capacity of deaf children. A comparison of the two tests seem to indicate that the Ontario test is superior in judging ability, in administering to children, and in scoring results.

DIABETES

76. Joslin, Elliott P.

Furtherance of treatment of diabetes mellitus. J. Am. Med. Assn. Jan. 1, 1949. 139:1:1-7.

This review of the medical picture of diabetes includes statistics, diet, insulin, treatment in diabetic coma, diabetes and epilepsy, and the need for continuous supervision of diabetics over a period of years.

DIABETES--BIOGRAPHY

77. Disabilities: 21; Diabetes. Lancet. Jan. 15, 1949. 256:6542:116-117.

An English physician's description of his diabetic condition which started in 1921. Changing concepts in the use of insulin parallels his story.

EMPLOYMENT (INDUSTRIAL)

78. Felton, Jean Spencer.

Job performance of physically impaired persons in industry. Occupational Medicine. May, 1948. 5:5:466-495.

A study made at the National Atomic Energy Laboratory of 300 physically handicapped employees to determine quality and quantity of work, ability, attendance, etc. A group of 300 physically perfect employees were used as a control group. The following conclusions were drawn: There was no marked difference between work records of the two groups. A program of selective placement proves that a physical disability is not necessarily an occupational disability. Industry should look upon the disabled as safe, useful, and valuable employees.

See also 114.

EPILEPSY

79. Nattrass, F. J.

Clinical and social problems of epilepsy. British Med. J. Jan. 1 & 8, 1949. 4591 & 4592. In two parts.

A discussion of present concepts concerning the etiology, diagnosis, classification, medical and surgical treatment, and social problems of epilepsy. Text is an abridged version of two lectures delivered before the Royal College of Physicians, April 13 and 15, 1948.

EPILEPSY--SPECIAL EDUCATION

80. Keefe, Billie Vliet.

Are teachers the problem? Tennessee Teacher. Dec., 1948. 16:4:13, 18. Reprint.

A sensible rebuttal to the theory that the epileptic child creates a problem in the schools and raises the question that educators and teachers may be the problem by hindering the education of an epileptic child.

81. Levinrew, George E.

Special school services for children with epilepsy. J. of Exceptional Children. Jan., 1949. 15:4:66-70.

Ideal special school services for the epileptic child include medical or clinical care, services of a school psychiatrist, and a cooperative and understanding teacher. Lacking these conditions, however, the epileptic child should be allowed to enter into normal school life whenever at all possible.

EPIPHYSEOLYSIS

82. Babb, Frank Shaleen and others.

Congenital coxa vara, by Frank Shaleen Babb, Ralph K. Ghormley and Carl C. Chatterton. J. of Bone and Joint Surgery. Jan., 1949. 31:1:115-131.

"Authors purpose is to summarize current concepts of this deformity and to differentiate it from multiple congenital deformities and to report 15 cases."

HEALTH SERVICES--SURVEYS

83. American Academy of Pediatrics.

The road ahead for better child health. (Philadelphia, The Academy, c1948) (20) p., illus.

HEALTH SERVICES--SURVEYS (continued)

"This material is based on a nation-wide study of child health services by the American Academy of Pediatrics with the cooperation of the United States Public Health Service and the United States Children's Bureau, but is not a summary of that study. The present brochure offers some suggestions for the improvement of child health services, based upon the findings of the study."

HEART DISEASE--BIOGRAPHY

84. Disabilities: 20. Coronary thrombosis. Lancet. Jan. 1, 1949. 256:6540:36-37.

An account of an English surgeon's initial attack of coronary thrombosis, his invalid state, subsequent recovery and present-day, normal activities.

HEART DISEASE--INSTITUTIONS

85. New York. New York Heart Association. Committee on Clinics. Standard requirements for a cardiac clinic. New York, The Assn. (1948). 15 p. Fourth revision.

The New York Heart Association has drawn up a set of regulations for cardiac clinics seeking affiliation with its organization. These standards can be applied to cardiac clinics in general and concern organization, administration, functions, and facilities necessary to ensure proper patient service.

HEART DISEASE--MENTAL HYGIENE

86. Binger, Carl.

Psychological phenomena in cardiac patients. Bul. New York Academy of Medicine. Nov., 1948. 24:11:687-701. Reprint.

A discussion of the psychological phenomena seen in three groups of cardiac patients, roughly classified as children or adults with rheumatic heart disease, middle age group suffering from 'cardiac neuroses' and older age group who suffer coronary obstruction. Case histories and physician's psychiatric approach to each are cited.

HOBBIES

87. Barnes, Susan S.

Chattahoochee cover club. Crippled Child. Feb., 1949. 26:5:18-19.

Cover-collecting, which consists of illustrating envelopes to match post office cancellations or stamps, is an interesting and suitable hobby for all shut-ins. Anyone interested in joining the Club can address inquiry to Mr. P. L. Cantrell, R. R. 1., High Point, N. C.

88. Kersten, Paul M.

Amateur radio and occupational therapy. Occupational Therapy & Rehabilitation. Dec., 1948. 27:6:498-502.

The therapeutic value of the hobby of amateur radio work is evaluated for its social, physical and psychological benefits.

HOSPITAL SCHOOLS--MASSACHUSETTS

89. Brayton, Margaret R.

Handicaps take a back seat at the hospital school. Crippled Child. Feb., 1949. 26:5:8-10.

"Miss Brayton ... is an advocate of segregation of physically handicapped children during their period of training. She believes that the handicapped child can later make an easier adjustment to normal ways of living if he is a product of the hospital school. This article presents her viewpoint."

HOSPITALS--PERSONNEL

90. American Hospital Association.

The development of sound personnel practices in hospitals. (Chicago) The Assn. (c1948). (99) p. (Hospital Personnel Administration, Sect. 1).

"This section presents the basic content for establishing a personnel program for expanding, revising and redefining an existing program. Illustrations and samples of procedures have been included."

HOSPITALS--PERSONNEL--BIBLIOGRAPHY

91. American Hospital Association.

Bibliography of reference material on personnel administration. (Chicago, The Assn., c1948). 16 p.

Contents: Personnel Administration, Employment problems and programs; Training; Salary and Wage administration; Personnel policies; Communications; Morale and efficiency; Labor relations and collective bargaining; Miscellaneous.

NURSERY SCHOOLS

92. Biber, Barbara

How can nursery schools be expected to benefit a child? J. of Pediatrics. Jan., 1949. 34:1:112-119.

A review of the basic values inherent in a good nursery school program. Includes techniques and equipment, the psychological development of children, need for social contacts, and discipline. The reason for a child's attendance may have an important bearing on the child's attitude and behavior. Consequently, teacher and pediatrician should be aware of the home situation of each child.

See also 120.

OLD AGE

93. Howell, Trevor H.

Geriatric rehabilitation. Occupational Therapy & Rehabilitation. Dec., 1948. 27:6:468-472.

Description of a program for the aged at St. John's Hospital, London, England. Treatment for chronic arthritis and hemiplegia is given.

OLD AGE--PROGRAMS

94. Louisiana Welfare. Oct., 1948. 8:4:1-21.

Title of issue: Special needs of the aged.

Contents: Sheltered care for the aged in Louisiana, by Myrtle Winters and Ludwig Guckenheimer. - A positive approach to work with the aged, by Hilda C. Arndt. - What a community can do for its aged, by George Freeman. - Recreation for the aged in New Orleans, by Dorothy Spiker.

PARAPLEGIA--SPECIAL EDUCATION

95. Disabled war vets attend Galesburg U. of I. Illinois Mobilizes for its Veterans. Nov.-Dec., 1948. 7:3:8-9, 14. Reprint.

A description of the buildings and facilities of the Galesburg undergraduate division of the University of Illinois, which make the school an ideal "paraplegic university."

PHYSICAL MEDICINE--PERSONNEL

96. Boynton, Ben L.

Physiatrist-medical coordinator. Crippled Child. Feb., 1949. 26:5:6-7, 28.

A discussion of the role of the physiatrist in integrating and correlating the services of therapists, physicians, social workers, and vocational counselors in their rehabilitation of the disabled, as initiated by the Veterans Administration in their Physical Medicine Rehabilitation Service.

POLIOMYELITIS--BIOGRAPHY

97. Laughlin, John.

Australian song maker. Crippled Child. Feb., 1949. 26:5:23, 25.

A biographical sketch of Allan Marshall, an Australian writer, who was stricken with polio at the age of 6.

POLIOMYELITIS--MENTAL HYGIENE

98. Hurley, Beatrice J.

The handicapped child is a person. Understanding the Child. Jan., 1949. 18:1:9-12.

A formula for a sane and sensible approach to the danger of polio. Normal growth needs both educational and social, for children who are handicapped are stressed.

PSYCHOLOGY

99. J. of Social Issues. Fall, 1948. 4:4:1-115.

Title of issue: The social psychology of physical disability.

Contents: Physical disability as a social psychological problem, by Lee Meyerson.-The physically handicapped in certain non-occidental societies, by Jane R. Hanks and L. M. Hanks, Jr.-Physical disability, mental conflict and social crisis, by Hans von Hentig.-The social psychology of physical disability by Roger G. Barker.-The socio-psychological dynamics of physical disability: A review of the Adlerian concept, by Rudolf Dreikurs.-Social acceptance of the injured, by Gloria Ladieu, Dan L. Adler and Tamara Dembo.-Personality crippling through physical disability, by Thomas D. Cutsforth. Experimental injury; an approach to the dynamics of physical disability, by Lee Meyerson.-Rigidity in the deaf and blind, by Helton McAndrews.-The impact of physical disability on social adjustment, by William M. Cruickshank.-Body image problems of the brain damaged child, by Laretta Bender and Archie Silver.-The disabled child in school, by Leo F. Cain.-General semantics and physical disability, by Spencer F. Brown.-Employment for the disabled, by Howard A. Rusk and Eugene J. Taylor.-A fair employment act for the disabled, by Lee Meyerson.-Social action for the disabled by Lee Meyerson.

"This issue of Journal of Social Issues is an outstanding contribution to the library, the thinking, and the action of social psychologists and clinical psychologists; of those educators and social welfare practitioners who work professionally with groups of physically disabled; of every citizen who accepts the responsibility for interacting intelligently with fellow citizens who have some disability; and of those with some physical disability who wish to gain perspective and insight through careful analysis of that large population to which they belong."

Available from Association Press, 347 Madison Ave., New York 17, New York. Single copy, 75¢.

REHABILITATION

100. Rusk, Howard A.

The broadening horizons of rehabilitation and physical medicine. Archives of Physical Medicine. Jan., 1949. 30:1:26-28.

Rising statistics in chronic diseases lay increasingly greater stress on the importance of rehabilitation and physical medicine.

101. -----

Rehabilitation and general practice. J. Am. Med. Assn. Jan. 1, 1949. 139:1:14-16.

The physician's role in the rehabilitation of the patient is examined. Simple procedures and techniques for the rehabilitation of the hemiplegic, arthritic, paraplegic and the amputee are given.

REHABILITATION--PERSONNEL

102. Kahn, Raymond L.

It's your job, too, by Raymond L. Kahn and Edward L. Morris. Crippled Child. Feb., 1949. 26:5:4-5, 29.

The acute shortage of professionally trained personnel is a serious obstacle to the establishment of greater and more progressive services to the handicapped. The responsibility for relieving this pressing condition lies within the scope of all who are interested in the welfare of the handicapped.

REHABILITATION CENTERS--MASSACHUSETTS

103. Hanson, Stanwood L.

Rehabilitation of handicapped workers. Industrial Nursing. Jan., 1949. 8:1:14-19.

An account of the problems concerned in rehabilitating handicapped workers, and a description of the program at the Liberty Mutual Insurance Company Rehabilitation Center in Boston, where over 1,200 seriously injured individuals have been admitted since it opened in 1943.

RHEUMATIC FEVER

104. American Academy of Pediatrics.

National meeting, Pittsburgh, Feb. 24-27, 1947, round table discussion: Rheumatic fever. Am. J. of Diseases of Children. Nov., 1948. 76:5:565-579.

Round table discussion of rheumatic fever which brought out following important points: 1) The pediatrician should be alert to early symptoms, 2) He should be certain of diagnosis, 3) Medical observation should continue over a period of time.

RHEUMATIC FEVER--NURSING CARE

See 121

RHEUMATIC FEVER--PROGRAMS--INDIANA

105. Public Welfare in Indiana. Nov., 1948. 58:11:3-15.

Contents: A program for the care of rheumatic fever in Indiana, by Irving Rosenbaum. Rheumatic fever - a public health program, by Robert E. Serfling. Approaching the problem of rheumatic fever, by Carl F. King. Existing programs for rheumatic fever, by Pearle H. Miller. Educational provisions for children with heart disease, by Jeanette Riker.

Entire issue devoted to the problem of rheumatic fever.

RHEUMATIC FEVER--STATICS

106. U. S. Children's Bureau.

Childhood mortality from rheumatic fever and heart diseases. (Washington, U. S. Govt. Print. Off., 1948) 63 p., tables. (Children's Bureau Pub. 322, 1948). 25¢

A statistical study of mortality from rheumatic fever and heart diseases according to age, race and sex in the children of the United States, its geographic divisions, and individual states. Bibliography.

SCHOOL BUILDINGS--DESIGNS AND PLANS

107. White, Warren T.

Planning school buildings for school children. NEA J. Feb., 1949. 38:2: 119-122.

"This new Yearbook of the American Association of School Administrators urges that representatives of the entire school personnel be brought into the planning that should precede any effort to lay out the drawings for a new building.

SOCIAL SERVICE--FINANCE

See 72, 122

SPECIAL EDUCATION--TENNESSEE

108. Essery, Florence V.

Welfare, health and education work together to meet the needs of children. Tennessee Public Welfare Record. Dec., 1948. 11:12:214-220.

A report on the 1948 cooperative workshop held June 14-July 12 and sponsored by the Tennessee Departments of Education, Public Health and Public Welfare with the College of Education of the University of Tennessee.

SPECIAL EDUCATION--SURVEYS--NEW YORK

109. Cruickshank, William M.

A survey of exceptional children in three school districts of Onondaga County, New York State, including a study of exception status of children reported not in school, by William M. Cruickshank and Elfleda Sprague. Syracuse, Syracuse University, 1948. (50) p.

A study undertaken to ascertain the number and distribution of exceptional children in a given county, and to determine the number of these children who legally do or do not attend school, and the conditions permitting either status.

SPEECH CORRECTION--PARENT EDUCATION

110. Chapin, Amy Bishop.

Parent education of pre-school speech defective children. J. of Exceptional Children. Jan., 1949. 15:4:75-80.

A resume and evaluation of group discussion programs for parents of children with speech defects, including the child with a stutter or cleft palate. It has been found that greater improvement in speech correction is made when parents are aware of the cause, types of treatment and problems involved in a speech correction program.

SPEECH CORRECTION--PROGRAMS--IOWA

111. Iowa. Iowa Society for Crippled Children and Adults.

Summer speech center at Grinnel College. (Des Moines, Iowa, The Society, 1949). (4) p., illus.

An announcement outlining plans for a summer speech workshop at Grinnel College in Iowa, June 7 to July 16, 1949. The center will be conducted under the auspices of the Iowa Society for Crippled Children and Adults.

TEETH

112. Yahraes, Herbert.

Your teeth - how to save them. (New York, Public Affairs, Committee, Inc., 1949) 31 p., illus.

The facts about teeth and their proper care are discussed simply and intelligently for the general public. Tooth decay, food, mouth hygiene, dental disorders, and good dental health are among topics treated. 20¢. Bibliography.

TRIDIONE

113. Nixon, J.

Toxic effects of tridione, by J. Nixon and John L. Emery. Lancet. Jan. 8, 1949. 256:6541:59-62.

Description of toxic complications that developed in a number of cases treated in the Sheffield Children's Hospital, England. Case records of ten cases are given.

TUBERCULOSIS-EMPLOYMENT

114. Jocz, Marion W. and others.

Employment of persons with pulmonary tuberculous lessions, by Marion W. Jocz, John J. Prendergast, and Carl C. Birkelo. Occupational Medicine. May, 1948. 5:5:496-505.

A report on a planned program at the Chrysler Corporation in Detroit for the employment of persons with inactive pulmonary lesions. A study was made of 300,000 employees during the years 1942-1946. The findings indicate that employment of persons with certain types of inactive pulmonary tuberculosis lesions is possible and practicable. The usual working conditions do not constitute a health hazard to such persons or their fellow employees.

TUBERCULOSIS--MEDICAL TREATMENT

115. Bosworth, David M.

Amputation for tuberculosis of joints, by David M. Bosworth and Walter P. Gaul. J. of Bone and Joint Surgery. Jan., 1949. 31:1:194-197.

"A study undertaken to determine the results from the removal by amputation of a massive focus of tuberculosis infection in a major joint."

TUBERCULOUS--OCCUPATIONAL THERAPY

116. Holland, Hudson.

Techniques in the rehabilitation of the tuberculous. Am. J. of Occupational Therapy. Nov.-Dec., 1948. 11:6:323-327.

The therapeutic value of a constructive occupational therapy program for the tuberculous in hospitals is emphasized as a necessary part of the ultimate rehabilitation of the patient. Suggestions as to what a therapist can do in achieving progress in this direction are given.

VITAL STATISTICS

117. Metropolitan Life Insurance Company.

Health progress, 1936 to 1945; a supplement to Twenty-five years of health progress, by Louis I. Dublin, with the collaboration of the staff of the statistical bureau. New York, The Company (1948) 147 p., tables.

Statistical data on general mortality, diseases of childhood, tuberculosis, pneumonia, cancer, heart diseases, diabetes, accidents, etc.

NEW BOOKS IN THE LOAN LIBRARY

CHILD CARE

118. U. S. Children's Bureau.

Your child from 6 to 12. Washington, U. S. Govt. Print. Off., 1949. 141 p., illus. (Children's Bureau Publication No. 324). 20¢

A manual designed to aid parents in understanding, raising, and guiding children to a healthy, balanced maturity. Physical, social and psychological behavior patterns are examined in relation to the norm for this age group.

DEAF--BIOGRAPHY

119. Heimer, Marie Hays.

Hearing is believing; introduction by Rupert Hughes. Cleveland, O., World Pub. Co., (c1949). 126 p. \$2.00.

"The amazing story of a young college sophomore who woke up one morning to find herself deaf, and who struggled out of the world of silence with courage that has proved an inspiration to other similarly handicapped people. She became one of the most ardent workers for the Cleveland Hearing and Speech Center, and her efforts in behalf of this organization have expanded it into one of the most progressive chapters of the American Hearing Society."

NURSERY SCHOOLS

120. National Commission for Young Children.

Children's centers; a guide for those who care about young children...Ed. by Rose H. Alschuler. New York, William Morrow and Co., 1942. 168 p., illus., diagrs., fold. plan. \$2.50.

Essential standards of administration, policy, equipment, and services basic to establishment of good nursery school.

RHEUMATIC FEVER--NURSING CARE

121. Sadler, Sabra S.

Rheumatic fever; nursing care in pictures. Philadelphia, J. B. Lippincott Co. (c1949) 151 p., illus. Spiral binding. \$3.50.

"This book is written and illustrated primarily for parents. It is in no way intended to take the place of the professional nurse, nor to be used as a complete nursing textbook, rather it is written to supplement the services of the public health nurse who, as a professional person and teammate of the doctor, may visit in order to give demonstrations and instructions according to the doctor's orders."

SOCIAL SERVICE--FINANCE

122. Seymour, Harold J.

Design for giving; the story of The National War Fund, Inc., 1943-1947. With a foreword by Winthrop W. Aldrich. New York, Harper & Bros. (c1947). 182 p., front. \$1.75.

"A history of the beginning and organization of the National War Fund which started as a spontaneous movement to federate overlapping charities and drives into one constructive agency.

"The National War Fund Drive was the greatest joint philanthropic effort ever undertaken by this country.

"Between 1943-1947 it supported nearly two dozen essential American communities amounting to 3/4 of a billion dollars. The story of this achievement is here presented in a frank account of the organization and operation of the Fund, both its mistakes and its successes."

BULLETIN ON CURRENT LITERATURE

The publications listed in this issue have been received by the library of the National Society for Crippled Children and Adults and are available for loan. The library does not stock copies for sale. Prices are listed, when known, so that orders may be addressed directly to the publishers. The publications are listed by author and title under the subject heading by which the item is cataloged and filed in the library. The subject headings in the Bulletin can be identified by being in all-capital letters.

Because the library may have only a limited number of copies of any items listed, and because of the great number of requests frequently received, it is suggested that the resources of local libraries be investigated first. The services of the library are extended to organizations and individuals whose local resources are so limited as to make information otherwise unavailable. It is understood that the borrower agrees to pay shipping charges for sending him the loan material and for returning it to the library.

A nationwide organization with headquarters in Chicago and more than 2,000 member state and local societies for the crippled and handicapped throughout the country.

The Society's many projects and services are directed and supervised by professionally trained specialists. Services include health, welfare, education, rehabilitation, recreation, recruitment and training of specialized personnel, and employment for all types of handicapped persons.

All services are established and carried out in a manner to supplement and extend and not to duplicate or compete with the services of any other agency, public or private. The National Society is supported by the annual sale of Easter Seals.
